2024 SRS ANNUAL MEETING

June 20-23, 2024 • Orlando, Florida • Conrad Orlando

invitation to partner

Dear Friends and Colleagues,

It is my great honor and pleasure to invite you to the 2024 Society of Robotic Surgery meeting being held in Orlando, Florida, from June 20-23rd 2024.

As you know in recent years, the SRS has grown leaps and bounds rising from a small single specialty, single robot society to one that is now fully encompassing all surgical specialties and robotic systems. At our last meeting in Melbourne, Australia, we had a huge turnout of over 1300 in person attendees and many more online. We believe this SRS will be even bigger and better than years past.

In 2023, we had 50 different robotic platforms and over 20 different digital OR, AI and VR companies present their technology. We saw the evolution of SRS from robotics to the full array of digital OR technology solutions, we see this trend of diversity continuing in 2024.

This year we will add an extra day so that we can have a Wall Street investor session to discuss the economic and strategic aspect of digital surgery and the multidisciplinary approach to oncology, where both medical oncologists come together with surgical oncologist to discuss urological, gynecological and GI malignancies. We will add live surgery for some of the specialties, showcasing new robotic platforms that are entering the market. New topics include: Telesurgery, AI, VR based education and telepresence. These new innovations combined with the continued growth of different robotic platforms will make for an amazing SRS 2024!

We hope you can join us as sponsors for our program. Our organization team and our board of directors are open to your input, please let us know of your specific needs. We look forward to having you join this very special meeting in 2024.

Warmest Regards,

Vipul Patel, MD
