

SRS Shark Tank 2026: A New Innovations Showcase and Competition

Course chairs: Amit Hazan and Vipul Patel

Course judges: Industry: Nadine Hachach-Haram, Steve Bell
Surgeons: Dr. Sharona Ross, Dr. Santiago Horgan
Investors: Jamie Perse

Time: July 23, afternoon session

Course Description: The goal of this course is to showcase early-stage companies within the digital and robotic procedure ecosystem. The technologies presented are new innovations that have potential to disrupt various aspects of the digital and robotic procedure ecosystem or MIS in one way or another, including new workflows and automation opportunities. These companies will present their technology and will have discussion with faculty judges (the Sharks) consisting of surgeons, investors and medical device industry experts.

Judging Criteria: Each innovator will have 5 minutes to present their story and another 5 minutes to answer questions from the Sharks. Sharks will judge each presenter on their research, presentation/demonstration and responses to questions. Slides or props related to the innovation/research are welcome as part of the presentation. The idea voted as the most innovative with the highest score will be deemed the winner, and runner ups will also be awarded. Awards will be handed out after the conclusion of the event.

Companies participating:

Peritas AI
Magnisity
Quantanosis

Additional participants to be announced soon
